Investment Objective

BMC Global Small Cap Select is an actively managed global small-cap fund focused on quality, entrepreneurship, and long-term high returns. The fund's primary objective is to deliver an average annual return of 15–20% over a full economic cycle, in a balanced, sustainable, and risk-adjusted manner. The fund invests in 30–50 carefully selected small-cap companies worldwide – businesses with strong ownership, solid profitability, clear growth potential, and reasonable valuations based on BMC's internal fundamental analysis. The portfolio management is entirely index-independent, providing the freedom to select the most attractive opportunities globally. The portfolio consists primarily of "Champions" – market-leading companies with strong financials and a high ability to grow future earnings – complemented by "Special Situations", where a clear value-driving catalyst may unlock additional return potential. The fund is classified as Article 8 under SFDR and invests in companies with a sustainable and investable ESG profile.
